Frank Brackett and crew are peeling repair cut from his 175 acre lot in East Norway near the Paris line. He is now at Hercul Bailey has moved his family from Fore street, Oxford, to the Herick Davis stand on Beal street. He has opened his garage nearby.

Edwin Thompson who purchased the Frank Small house adjoining the "Wiley store" on Beal street has been making improvements that include electric lights and a bath room. The buildings will be painted and considerable grading done about the lawn.

Uncle Henry Kilgore has planted over most of his home garden. The lot was flooded during the freshet and crops just breaking ground were spoiled. Uncle Henry takes pride in this garden and usually raises prize winning vegetables that supply the family table and less fortunate neighbors.

Mrs. Clarence W. Merrill is assisting with the housework at Alton Noyes'.

Archie Gurney has been away from his employment at the Paris Mfg. Co's because of chicken pox. He was quite ill for a number of days, but returned to work Tuesday.

The Baptist Home Department met Wednesday afternoon with Mrs. Ray Bennett, Water street.

Mrs. A. C. Everett has been visiting her daughter, Mrs. Will Stone on Water street and assisting with the housework because of Mrs. Stone's slight illness.

Laura Lemieux returned from Island Pond, Saturday, where she had been to attend the commencement exercises of the Catholic school. She has been having more than her share of trouble lately. A mixture of German measles and mumps served together is not a flattering vacation present.

Corp. George Dubey, Co. D, spent one day with his parents here.

Mrs. Fred Knightly and son, Ernest went to Biddeford, Saturday. Her son, Priv. William Knightly of Co. D, returned with them and will remain a week, hoping to gain strength from the effects of measles.

W. E. Everett and family are on their farm in Waterville this week finishing the late planting.

Mr. and Mrs. Alfred Monk, Mrs. Fannie Frost, Mrs. P. C. Greenleaf of East Otisfield and Mrs. Rose Holt of Fairfield were at Sodom, Sunday on a visit to Mrs. Deborah Hill and Mrs. Esther Cushman. On their return they called on a sister, Mrs. A. C. Everett, who is stopping on Water street.

A live wire that fell opposite the Billy Walker house caused some excitement Sunday morning. A contact with the ground burned away the insulation causing fire, smoke and commotion.

Hazel Foster, who has been teaching in Brockton, Mass., has returned home and will keep house for her father, S. C. Foster, during the summer.

Mrs. J. C. Shepard and daughter, Clara, have taken rooms over Mrs. George Robinson's in the Norway block.

Annie Newcomb, who has been teaching at Harrison, has returned home and in company with her grandmother, Mrs. Grover, started for Michigan this morning.

The Browning Reading Club will hold their memorial service at the home of Mrs. H. L. Bartlett on Main street next Monday afternoon, July 2 at 3 o'clock.

Mr. and Mrs. Alex McLean of Hawks Park, Florida, arrived Wednesday to spend the summer at their cottage at the Lake.

Mrs. Iza T. Whitman of Redwing, Minn., is visiting her brother, Stephen C. Hatch.

Elmer D. Terrier of Baltimore, Md., is in town for the summer. He came some three weeks ago and has been stopping at Frank Packard's near Noble's Corner. He is a little fellow, but full of "snap" and can adapt himself to any condition. For some feat during the late heavy rain storm they call him in that section "the little hero" and there is not the least doubt that he merits the title.

Judge and Mrs. Morrill N. Packard will come in auto August for a month's stay and Mrs. Packard will run the machine all the way.

The many warm friends here of Stuart M. Terrier will be interested to learn that he is considering the proposition of entering the Aviation Corps of the United States service. If he does Judge Whitman says he will be one of the most daring and accomplished of the whole force, but he advises his sticking to civil engineering of which he is very skillful and efficient and his services in this line will be needed by the government.

Judge says he expects some day to see him mayor of Baltimore and perhaps governor of Maryland.

Albert J. Stearns has been nominated by Governor Milliken as a trustee of the State Hospital at Augusta.

Emily D. Davis of Roxbury, Mass., formerly of Bethel, and daughter of the late Amer Davis, prominent in the affairs of that town thirty years ago, is spending the summer with Mrs. G. F. Stone, Main street.

Summer began at 7:35 Wednesday night, June 21st, so it is said, but how about the missing link, spring? It looks pretty much as if spring decided to economize and save expenses so did not make her annual tour in Maine this year.

Mr. and Mrs. H. H. Stuart and family of Augusta, came to their cottage at Lake Penesseewassee, Friday, where they will spend the summer months.

Charles P. Inslee of Brooklyn, N. Y., present owner of the Lakeside Inn, is in town on business.

PUBLIC SAFETY MEASURES

Enlist Now! Your President Calls You! The Army Wants You! The Country Needs You! Come on, you Loyal Americans, and let's help free the world, that our children may live in peace.

IMPORTANT NOTICE
The Carroll Jellerson Shoe Factory will be closed for one week from Monday next, June 26th to July 2nd. In order that employees may cultivate their gardens and (2) in order that thoroughly efficient help may be extended to the farmers at the moment when they most need it. From the proprietors to the latest-joined employee one motive alone underlies this shut-down of a week, and the farmers (whose many and patriotic efforts have inspired the thought) are urged to take utmost advantage of it.

PROBABLY THIRTY MEN WILL BE AVAILABLE FOR A WEEK from Monday next. Not inefficient, inexperienced men, but able and willing hands, anxious to give full value for the pay and to do their bit by helping raise bumper crops. Not one unqualified individual is included in this offer. ALL ARE EXPERIENCED FARM WORKERS.

Now then! Who wants help? Don't waste a minute. Phone in; or, better still, come in and tell the committee our requirements. See Henry Foster at his store, or Mr. Carroll at the factory, or Fred Cummings. Let us know what you want by Friday evening, June 22nd. Plans can be laid without confusion. This is important.

These men will be taken to work on autos free of charge and called for every evening, and everything that is humanly possible will be done by the committee to make things run smoothly. There are no strings to this offer. No favorites will be played. First applicants will be served first. The only requirements are that you need the help, that you will pay the market price for it, and that you make your wants known in time.

Everybody appreciates the splendid effort the farmers of Oxford county are making. Oxford County is away ahead of all the other counties in the state, and probably leads New England. This offer is the proof that the farmers are not to be asked to carry all the load, but that those who can help are ready and eager to do it.

So hurry up and phone in, or come in, and make known how many skilled men you can employ for how many days next week.

Please let us know by Friday evening at latest.

It is not likely there will be such another chance as this before harvest, so make the most of it.

Patriotic Sunday in the Methodist Sunday Schools

The entrance of America into the great world war was inevitable. It is a struggle for democracy and liberty. Autocracy must not triumph or democracy is doomed. No one can fasten the blame of the conflict on the thousands of the young men of this country must bear the burdens and experience the horrors of war on the battle field of Europe. Whatsoever can be done must be done to provide for their welfare.

The American Red Cross is chartered by Congress. It is the only volunteer agency of relief commissioned by the Government, in case of war or overwhelming disaster. In the present world conflict the Red Cross ministers, not only to the sick and wounded on land and sea, but also to the dependent families of the soldiers and sailors.

Sunday schools may be organized as auxiliaries to the Red Cross and can help in securing the desired 1,000,000 Red Cross members.

Sunday, July 1, will be observed as Patriotic Sunday in the Sunday schools of America, and as part of the exercises of the day, an offering will be made to the Red Cross Society.

President Wilson has approved the plan and has appealed to the Sunday schools of the nation to do their best for this patriotic cause.

Individual members of all churches have no nobly, but the church as an organization has attempted nothing adequate or even definite as yet.

The Sunday school is the church's largest and most effective organization. It deals with all ages and embraces the church's entire constituency.

Every Sunday school in Maine Methodism is expected to do its share by making a generous offering and by securing memberships to the Red Cross. Every pupil should be urged to bring on next Sunday a gift representing real sacrifice on his part for Red Cross work.

High School Graduates Seven in One Family

Patriotic remarks by Rev. D. F. Faulkner, South Paris, followed. A piano duet by Mrs. J. W. Chute and young pupil was greatly appreciated. Mrs. Alice Maxin, South Paris, read an original poem, "The World's Call" and Rev. H. L. Nichols of Norway gave a patriotic address that suggested many things helpful to true citizenship. Mrs. L. M. Noyes and Miss Perkins rendered a beautiful vocal duet, "Your Flag and My Flag." Berenice Nash, Norway followed with a pleasing song, "The Stars and Stripes." Gladys Russell gave a piano solo that was well received. Donald Partridge, formerly principal of the Canton High school, gave a short address. A reading by Mrs. H. L. Nichols, Norway, closed the program.

A vote was taken to hold the next annual meeting at the same place on the third Wednesday in June, 1918, Wm. A. Kimball Post volunteering to furnish coffee and necessary things free.

All of the meetings were held in the Central Park hall which had been elaborately decorated by committees from the sister towns. SOUTH PARIS

New Rates for Norway and South Paris The Public Utilities Commission rendered a decision this week in the matter of the complaint of Dr. Delbert M. Stegert and others of South Paris against the Oxford Electric Co., alleging that the rates for electric lighting in the village were unreasonable and unjustly discriminating.

A hearing before the Commission called out many witnesses and considerable data secured. The company offered a new schedule of rates and the complainants then asked that the case be dismissed, which was done. This arrangement was not wholly satisfactory to all concerned and the matter put up squarely to the commission.

As a result the new rate to be in effect July 1, 1917 specifies 11c per kilowatt hour for the first 100 kilowatts; 10c per kilowatt hour for the second 100 kilowatt hours and 9c for the third 100 kilowatt hours and all in excess. Current furnished for heating, power and domestic cooking will be 4c per kilowatt hour. Street lighting-rate remains at \$55 per year for an arc lamp and \$12 per year for 32 C. P. lamp. Lights to be maintained from dusk to daylight except when the "Standard Moonlight Schedule" is in use. Lights may be extinguished at 1 A. M., when steam is used for power during a water shortage.

There are no discounts whatever from this schedule each item being a flat rate.

At the home of Caroline and I. Marion Gray, Monday evening, a linen shower was given by Blanche Scribner, Norway, in honor of her approaching marriage to Ralph Andrews of South Paris. The affair was an entire surprise to Miss Scribner, she being asked by Eva Andrews to call and borrow some music from Miss Gray. The company, assembled in the hall above, literally showered the prospective bride as she entered, dainty and expensive linen being featured. Fruit punch, fancy crackers and sandwiches were served. One pleasing feature of the evening was a demonstration given by Miss Andrews, who is a very capable and efficient typewriter operator. Her demonstration was pleasing and enjoyed by all.

Mrs. Agnes L. Morton has been engaged as organist in the Paris Hill Universalist church during the vacation at the Universalist church in South Paris.

HAS SOUTH PARIS FOUND THE SAME?

The Answer is Found in the Straight-forward Statement of a South Paris Resident.

We have been reading week after week in the local press of Norway, citizens who have been rid of distressing kidney and bladder troubles by Doan's Kidney Pills, and we have often wondered whether the same high opinion of this medicine is to be found in our neighboring towns. This frank and earnest statement by a well-known and respected resident of South Paris will set this doubt at rest.

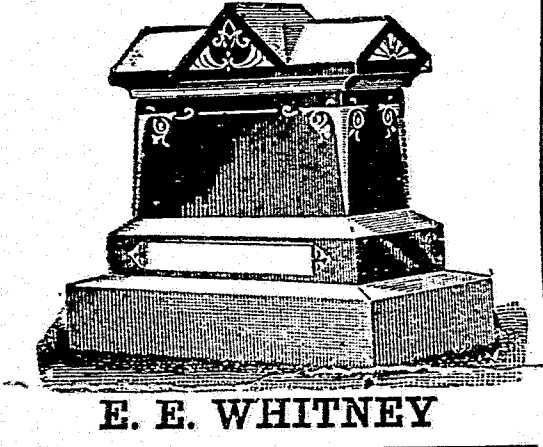

James H. Perry, painter, Pleasant St., South Paris, Me., says: "I can recommend Doan's Kidney Pills as I have used them with very fine results. I took four boxes of Doan's Kidney Pills, and they gave me prompt relief from pains across my back. Since then, I have been practically free from the trouble. Occasionally, however, I use a few of Doan's Kidney Pills and they keep my kidneys in a strong condition."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Perry had. Foster-Milburn Co., Props., Buffalo, N. Y.

Catarhal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be relieved by medicine, the tube is not in its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflammation of the mucous surfaces. Hall's Catarrhal Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrhal Medicine. Circulate free. E. C. CHENEY & CO., Toledo, O.

REVOLUTIONARY SOLDIERS REMEMBERED

The Abigail Whitman Chapter, Daughters of the American Revolution, dedicated a large granite boulder in Witherell Park, Norway, Thursday afternoon, June 14, to the Revolutionary soldiers of Oxford County. This memorial was placed there late last year without public exercises.

The program consisted of America sung by the school children; invocation by Rev. H. L. Nichols; presentation, Margaret Baker, treasurer of the Chapter and descendant of Capt. Samuel Baker of Lexington fame; acceptance by George F. Hathaway, chairman of the selectmen; "Star Spangled Banner" by the children; address, Judge C. P. White, a direct descendant of Abigail Whitman. Rev. Robert J. Bruce pronounced the benediction.

The bronze tablet recently placed on the monument was unveiled by Houghton Kimball, son of Mr. and Mrs. Merton Kimball and Eleanor Smith, daughter of Mr. and Mrs. Lee M. Smith, both having prominent Revolutionary ancestry. Inscription on the tablet reads "In Memory of the Revolutionary Soldiers of Oxford County, erected by Abigail Whitman Chapter, Daughters of the American Revolution 1916."

Presentation Address, Margaret Baker "We are gathered here to-day to offer tribute to those brave men who, when this land was one wide battle field, offered their very life blood, their dearest hopes and aspirations for the preservation of their country."

"It was not a contest when an island or a province was to be the award with success, but a contest for personal liberty and civil rights, coming with its principles to the very fireside and the sanctuary of home, and was to determine for every man the measure of responsibility he was to exercise over his conditions, possessions and happiness."

History, as an example, can nowhere be studied to better advantage than in this revolutionary period of to-day; and especially by us who sit under the tree our fathers have planted, enjoying its shade and nurtured by its fruits. It is of little credit to us if we praise their deeds and do not emulate their virtues. Love of country was to them an absorbing principle. Union was the arch upon which they built the tower of our Nation's Independence and we pray that not one stone may be loosened to mar the foundation of that fair structure and that no word may be spoken to detract from the value of that which they deemed without price.

And we, Daughters of the American Revolution, members of Abigail Whitman Chapter, Norway, Maine, present this boulder to the town of Norway, in loving remembrance and with the deepest reverence for those brave Revolutionary heroes of Oxford County, who fought so valiantly for the glory and honor of their country.

"Our safety lies in the thought that it is the spirit that lives, and if we cherish their spirit, to us will belong the glory and honor to preserve, intact, the rich inheritance which they so nobly achieved."

Dedication Address, Rev. Soldiers' Monument at Norway, June 14, 1917. By C. F. Whitman.

This is not only a notable occasion in the history of Abigail Whitman Chapter D. A. R., but the day is being observed all over the land as "Flag Day." It is a glorious sight to see the stately banner of the patriots of national emblems so universally displayed, for it has a very significant meaning at this time.

"Our flag is there! Our flag is there! Behold its glorious stripes and stars! The love of home and country is one of the finest attributes of human kind. What so thrills the heart as home? And what sweet associations come to mind as we think of home? 'Home Sweet Home.' For 'be it ever so humble, there is no place like home.' Our country is made up of prosperous and happy homes. In no other land are there so many such homes, in proportion to its population. We love our country for it fosters such homes and protects us in our lives and possessions. We are proud of its history for it is bright and shining with glorious deeds. We are very proud also of the name American."

It is grand to be in and of such a country. In all its conflicts, it has held aloft the standard of right and justice. It has never despoiled nor oppressed and from first to last, it has never been beaten, in any war. To an American it is unthinkable, that it ever will be.

In the present conflict, into which we have been driven, no one can tell 'what disasters may come, or what calamities may befall, but in the end, we shall surely triumph.

It is grand beyond expression to live in this age, and see the unity of sentiment, for sustaining our country in this, the hour of its peril. If this war is settled right, it will probably be the last great conflict the world will ever see.

Ours is not only the freest and best, but in wealth, in numbers and in area it is one of the greatest nations. Continental United States contains 100,000,000 of people. Two great oceans bound it, east and west. It has every variety of soil and climate, and everything grown out of the earth is produced within its boundaries and possessions. It is a land where the people are intelligent, moral, industrious, patriotic and free. Our form of government and our institutions have profoundly influenced the progress of all other nations and races of people. We know what events in human history have made us what we are.

What Americans can forget, the story of the long voyage across the stormy Atlantic of that little vessel with its 102 Pilgrims who landed at Plymouth in 1620?

"The breaking waves dashed high On a stern and rock-bound coast, And the winds against the stormy sky Their giant branches tossed. The heavy night hung dark The hills and waters o'er. When a band of exiles moored their bark On the wild New England shore."

What thought goes thus afar? Bright jewels of the mine! The wealth of seas, the spoils of wars? No! They sought a faith's pure shrine. Before going ashore in the cabin of the Mayflower, they signed a compact of government which became the charter of our liberties. They founded this free and mighty nation. We, who are their descendants are prouder of our ancestry than to have been descended from kings.

Our hearts thrill to-day, on Lexington Green, at Concord Bridge, where "The embattled farmers stood, Who fired the shot heard round the world"

and under the shadow of Bunker Hill monument. Our reverence is profound at Mt. Vernon, in the presence of the illustrious dead—Washington, the Father of our country.

"And O Columbia by thy sons caressed, There dwelt the Father of the land he blessed; Who no wish felt to make his mighty praise, Like other chiefs, the means himself to raise, But there retiring, breathed in pure renown And felt a grandeur that disdained a crown."

"O Spirit of Liberty, sweet are thy numbers, The winds to thy banners, their tribute shall bring. While rolls the Potomac where Washington slumbers And his natal day comes with the angels of spring."

We can never contemplate from Cemetery Ridge at Gettysburg the mighty contest, which took place there for the preservation of the Union, without a feeling of profound thankfulness to God that the high tide of Rebellion was here turned. The men who fought and won the battle will never be forgotten.

"They stood who saw the future come, On through the fight's delirium; They stood and stood, we held the hope, Of nations on that slippery slope, Amid the cheers of Christendom."

God lives! He forged the iron will That clutched and held that trembling hill God lives and reigns! He built and lent These heroes' lives for battle's baptism. Where floats her flag in triumph still.

The exercises of this day would be a mockery if we did not fully appreciate the spirit which animated the Patriots of the Revolution. They went to war for a principle, and they would not submit to any system of taxation, without the right to be heard through their representatives chosen according to their own laws. They loved their country and their homes. They prized individual liberty—individual thought and action, and they were willing to suffer any privation to attain it. They were not pacifists—for peace at any price, which means peace with dishonor, for had they been such, American Independence would never have been acquired.

As mere pacifists, we cannot truly honor the soldiers of the old Continental army. The times in which they lived was a heroic age. The war of the Revolution was preceded by a hundred years of conflict. During that period there were six Indian Wars, and England and France had several conflicts, which involved the people living along the Atlantic seaboard. The periods of peace were very few and far between, yet the numbers of its inhabitants swelled apace. The country invited the bold adventurer, the hardy pioneer, and the industrious citizen, and such came in increasing numbers and helped to people the land.

The Revolutionary Patriots did not desire war for war's sake, nor do we now, but in times of peril, and in cases of necessity, if a people would preserve their liberties, their homes and their institutions—all they hold dear—they must be prepared to defend them. Much, very much, depends upon diplomacy, in keeping a country out of war, and defending its rights, but the best guarantee for peace and the preservation of our dearest interests and honor is an efficient navy, the universal training of all citizens and the settled policy of the government, that it will stand for nothing but what is right and submit to nothing that is wrong, and that friend and foe alike may know, that it is not to be trifled with.

Our work may perish and come to naught, but that of the soldiers of the old Continental Army, who served in the War for American Independence, may crumble to dust. The place where we are assembled, by some internal convulsion, may sink out of sight and passing from the record of the world, the deeds shall never perish. The heroism they displayed, the sacrifices they made, and the victories they won, have given them imperishable renown.

This granite stone is erected in memory of Oxford County men, who served in the War for American Independence. The county was not incorporated till nearly 25 years after the surrender of Cornwallis at Yorktown. After peace was declared, hundreds of the old soldiers from Maine and N. H. found new homes, among the hills and valleys of what is now Oxford County, but there is one town—Fryeburg, then a part of York County, which was settled in 1762—that sent some of its citizens into the war.

The Patriots of the Revolution who settled in this part of Maine represented the rank and file of the old Continental Army, and in their service all the battles of the war from Lexington and Concord to Yorktown.

They brought with them the glory won at Bunker Hill, in the storming of Stony Point, the surrender of Burgoyne at Saratoga, the freezing and starving period at Valley Forge and the brilliant victories of Princeton and Trenton, and they bequeathed it to their descendants.

It is a remarkable fact, that some of the most praiseworthy efforts in perpetuating heroic achievement, and the preservation of historic places from ruin and decay, have been made by patriotic women. Through them, Bunker Hill monument was erected, as a memorial to Gen. Joseph Warren, who was killed in the battle there.

At a later time, patriotic ladies were instrumental in preserving for future generations, the home of Washington at Mt. Vernon. The Old South Church and the Old Granary Burying Ground in Boston, would be destroyed for places of trade, but for the opposition of the patriotic ladies of New England, and but for such as they living all over the land patriotism itself might almost sleep the sleep of death.

The loyal wives and mothers of the Revolution deserve more than a passing notice. Their husbands, sons, fathers and brothers, in the long and arduous struggle, were upheld with a devotion never excelled in all history. They too underwent great trials, hardships and sacrifices. Their prayers were uttered for the success of the cause and the preservation of their kindred, and their tears were shed for the lost and maimed, and the disasters suffered on land and sea. They did their part in the achievement of American Independence.

I know from the traditions that have come down to us in the family, that Abigail (Packard) Whitman, the little black-eyed woman, for whom this chapter has been named, was worthy of the honor. She was married soon after the Declaration of Independence to Jacob Whitman, a Massachusetts man.

"Mirate man, who ever and always Awaited the signal of warning, And knew it came, and knew it true, Where he would be in the morning."

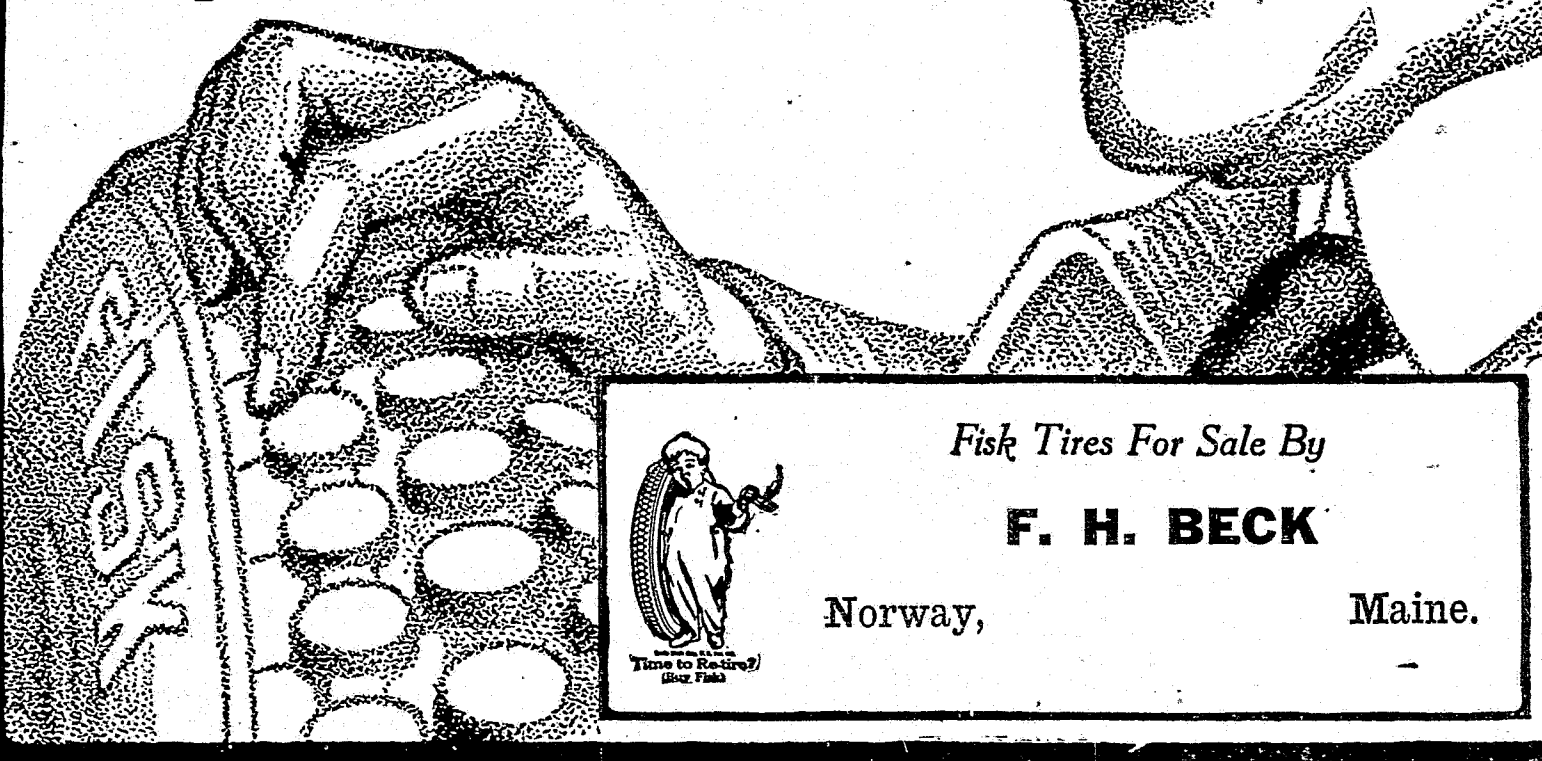

He was in service during the Lexington and Concord alarm, and was at Bunker Hill in the engagements around New York, Stony Point, Saratoga and Monmouth. Three of their children were born during the war. They settled after the war in Buckfield. He died in 1842 and she in 1857. Her two great grand children here today, Mrs. Howard D. Smith and myself, fully appreciate the honor conferred upon her name and

thank the officers and members of this Chapter with full hearts.

You are doing a praiseworthy work, which but for you would never be done. The graves of many Revolutionary Soldiers are being located, marked and enduring records made, and while this is being done, you are making a lasting record of your own splendid qualities, and patriotic endeavor thus showing you to be worthy descendants of heroes and heroines of the American Revolution.

"Our God! We thank thee for this home The bounteous birthland of the free; Where warriors wave her climes free, And breathe the air of liberty. Still may her flowers untrampled spring Up my mind to invite in a few of my friends with whom we have become acquainted since we came to Pittsfield, Mass., to help celebrate the occasion and enjoy ourselves. But as Bobby Burns says 'the best laid schemes o' mice and men gang aft a-gley.' Unfortunately Mrs. Slater was taken sick five weeks ago with acute indigestion which later developed into jaundice which caused poisoning and then resulted in pneumonia in the right lung. We have had the services of a trained nurse for the past four weeks and at the present writing the doctor says she is doing as well as could be expected. We hardly know how it is going to end. Everything in our power is being done."

Mr. Slater says that he always has a fond spot in his heart for Norway, because it was the first place in the United States of America that he lived in.

See These Shingles Before You Build

If you are planning to build or repair, you owe it to yourself to know more about the merits of American Twin Shingles. On all sloping roofs these shingles give a dollar's worth of value for every dollar spent.

AMERICAN TWIN SHINGLES

are made of tough felt, thoroughly waterproofed with everlasting asphalt; then coated with crushed slate. American Twin Shingles are made in beautiful red and green colors and will harmonize with any surroundings or architectural plan.

Come see these shingles today. We have a wide assortment of building materials awaiting your inspection.

On account of the high cost and the difficulty in getting shipments, we have laid in a stock of the above shingles. They are not any more expensive than the white cedar shingles at present prices and in addition to this, they are FIRE PROOF. This is quite an item.

Charles G. Blake
NORWAY, ME.

AGRICULTURAL IMPLEMENTS

We have now in stock Worcester Buckeye, Adriance and McCormick mowers, New York Champion and Yankee horse rakes, also the John Deere steel rakes, Hay Loaders and Side Delivery Rakes. Machines are still cheaper than hired help. There will get the best prices.

ENSILAGE CUTTERS AND SILO FILLERS
We are agents for Silver's "Ohio" Silo Filler and have bought several of these machines. Their good qualities are well known. Call and see them or send for a booklet.

WHY A PLAYER?

How many times do people say that they'd like to have "life to live over again?" Sort of a foolish wish. What's past is gone and regretting isn't going to bring it back not one inch or one second nearer.

What are the things YOU would like to bring back? Are you sorry you didn't have a musical education? Many people have been so busy doing things, they couldn't exercise their talents much. They found other work to do—more pressing work.

The Playerpiano is for people of that kind—for people who DIDN'T HAVE THE CHANCE—or who wouldn't take it. But—the Playerpiano fills in that gap of things you've wished for. It supplies music to you—BY YOUR OWN EFFORTS—that's maybe better than you would have learned it even if you'd studied and practised.

And it gives you that satisfaction of having a piano in your home. It makes it LIKE OTHER HOMES. It's a lot better than looking into the fire, and wondering WHY you hadn't im- proved your opportunities a good deal. It's better than a home SILENT for lack of music. It seems as though you'd let more LIGHT into your home and captured it, to feed it out just as your desires tell you to. The PLAYERPIANO is the bridge that connects today with what MIGHT HAVE BEEN in the long ago!

Pianos, Playerpianos and Organs. New music rolls every month. Send for catalogues.

In the sack race for boys under 15, Howard Jackson, South Paris Universalist, got first; Maynard Record, So. Paris Universalist, second; Maynard Record, So. Paris Universalist, third. The sack race for older boys was a spectacular event full of tumbles and bumps. Henry West, South Paris Baptist, came in first; Roland and Andrews, Norway Cong., second; Glenn Ross, Paris Hill Baptist, third.

The youngsters running on three legs is some view, and embarrassing for the contestants when not in good working order. This three legged race for boys under 15 was amusing and at times was not far behind a three ring circus with everything going full blast. Henry Morton and Lester Cushman won the first; Maynard Record and Harold Tins second; Howard Jackson and Wilbur Miller third, all from the South Paris Universalist school. For boys over 15, Merion F. Andrews, Norway Cong. gathered in the first; Glenn Ross and North South Paris Cong. and Paris Hill Universalist, second; West and Bryant, South Paris Baptist, third. Two 100 yards in 21 seconds.

Fun ran high during the "tug of war" when the ministers challenged their deacon and superintendents to a trial of strength on the lone rope. On one end were lined up Ross, Nichols, Paulker, Miller, McWhorter, Tutthill, Ball, Stover, and Company F. guardsmen of Dover. Rev. G. H. Newton acted as coach. Across the line were Deacon George Crockett, Supt. Forbes, Walter Deacon and superintendents from Bryant's Pond and West Paris. The pistol shot set the men pulling good and hard. First one side, then the other, had the advantage, but in just 49 seconds the ministers found the right combination, so with one tug war cry and strong pull, they lifted their antagonists clean off the ground for a decided win. Revenge seemed sweet as could be read from each face while they pulled on their coats, adjusted one sided collars and see-saw ties. As one remark-

ed, "It was a shame to publicly humiliate them, but we had to do it." In the second tug of war Paris won over Norway in 1 minute, 15 seconds, and the Paris youngsters walked away with the Norway champs in 20 seconds.

The game between West Paris and South Paris was not a speedy affair, owing to a light shower that wet the tall grass and made good work impossible. Many substitutes were used to fill the teams. West Paris won with a score 8 to 5.

Results of points given out by the committee are as follows: Norway Congregational 41; South Paris Universalist 15; South Paris Congregational 13 1/2; So. Paris Baptist 12; Norway Baptist 7; South Paris Methodist 5; West Paris Universalist 4; Paris Hill Universalist 1 1/2; Paris Hill Baptist 1; Bryant Pond Baptist 1.

Cup Remains in Norway

The Norway 2nd Congregational church won out in the Sunday School Field Day events held Tuesday, June 26 on the Oxford County Fair Grounds.

Paul Hosmer cleaned up 18 of the 41 points with Francis Andrews a close second, both from the winning school. Last summer the association silver cup was won by the Norway Congregational boys, so it will be carried over another year as a reminder of this friendly contest.

The exercises commenced after the arrival of the forenoon trains and were held at the small grand stand with nearly 500 in attendance. A young ladies' chorus rendered "Star Spangled Banner," "Nearer My God to Thee," "Tribute to Our Soldiers" and "America."

Mrs. Agnes L. Morton was director and organist. Rev. W. B. Tutthill of Woodville delivered a strong address urging christian citizenship which should begin in the Sunday school. Only teachers with christian experience should handle pupils and teach the word of God. Our states demand thorough preparation for the public schools, and why should not the churches require the same standard of knowledge plus real piety.

A picnic dinner was eaten at noon and family groups gathered in the good old fashioned way to enjoy their lunches under the pines or in shady nooks.

The afternoon events were called at 1 o'clock on the track in front of the large grand stand. Many members had not filled and this caused some delay while making up an interesting field.

Abner Mann of West Paris was clerk of the course, Rev. Robert J. Bruce, Norway, Time; Rev. D. D. Hall, West Paris, and Rev. G. H. Newton, South Paris, judges; Ralph Penfold, Portland, starter.

Boys under 15 were called out for a 100 yard dash as an opener. Percy H. Nevers, Jr., first Norway Cong.; second, R. Tyler South Paris Baptist; third, Howard Jackson, South Paris Cong. Time, 13 seconds. Clayton Purinton came in with the winning field, but was disqualified because of uncertain registration. A large field gathered for the 100 yard dash including all above 15 years, so split heats were run. In the first trial Paul Hosmer, Norway Cong., reached the stake first; Perham, West Paris Universalist, second; North South Paris Cong., third. Time, 12 seconds.

In the second trial Francis Andrews, Norway Congregational, crossed the stake first; Doughty, West Paris Universalist, second; Allen, Bryant Pond Baptist, third. Time 12 1/2 seconds. The six leaders of these preliminary dashes worked out the 100 yard final that was hotly contested, giving Hosmer first; Andrews, second; H. Perham, third.

Katherine McWhorter, South Paris Cong., came down the 50 yard stretch winning over Annie Clifford of the same Sunday school in 11 seconds. In the same class for girls over 15 years, Imogene Hunt, Norway Cong., had the victory, Norway Baptist, split even on the decision as the contest was close at the finish. Contestants were easily secured in the 100 yard dash for girls. The bunch got away in regulation style and held a fast pace until the end. Many think girls in bloomers can't run, but this race exploded all such theories even in existence, the winner coming across in 15 seconds. Doris Kerr, South Paris Methodist, first; Lillian Jenkins, Norway Baptist, second; Katherine McWhorter, South Paris Cong., third.

In the 220 yard dash Paul Hosmer and Francis Andrews both of the Norway Cong. won first and second easily with Henry West, South Paris Baptist, third. Time, 27 seconds. The half mile bicycle race had six in the field. Henry West won in existence, the winner coming across in 15 seconds. Doris Kerr, South Paris Methodist, first; Lillian Jenkins, Norway Baptist, second; Katherine McWhorter, South Paris Cong., third.

SOUTH WATERFORD.

The funeral of Lester W. Shaw occurred on Friday of last week, services being held at his old home, conducted by Rev. Mr. Davies of North Bridgton.

Many were present to pay the last tribute of respect to one fully worthy of their friendship and esteem. The floral tributes were numerous and beautiful. Many pieces were sent by different fraternal organizations in Massachusetts of which he was a member. Burial in Elm Vale cemetery.

It is very much to be regretted and seems almost incredible, yet the deplorable fact remains, that we have in our town a party so completely devoid of sense and decency, as to utterly disregard the rights and privileges to say nothing of the courtesies which should be shown those in a funeral cortege in the operating of his automobile, and yet that is exactly what occurred last Friday, very much to the discomfort of many persons.

Unfortunately we have no ordinances here which would lead to the punishment of such offenders, but the revoking of the license of those who have so little respect for decency would seem a very mild penalty.

KEEP PLANTING

We may expect that late planted crops will mature this year. The date of harvest depends as much on rapidity of growth as on planting dates.

Nearly every year growth is retarded by drought. The soil is now full of water, and damage by summer drought is slight if proper cultivation is given.

Look at the lesson of 1916. A sweet corn grower reports corn ready for canning on these dates: in 1913, first planting Sept. 9, last planting Sept. 12; 1914, first planting Sept. 10, last planting Sept. 22; 1915, first planting Sept. 14, last planting Sept. 23; 1916, first planting Sept. 2, last planting Sept. 26.

The spring of 1916 was the latest for years, but corn canners opened early. Why? The abundant soil moisture caused very rapid growth through the hot weather and turned defeat to victory.

This year the moisture for all summer is now on hand. Plant right up to haying time and the hot days coming will force the rapid growth of the tropics.

The country needs food. We must not have a famine in Maine. "He who will not plow by reason of the cold shall beg in the harvest and have nothing."

Frost Lore

Farmers generally believe that the September full moon is the critical time. If we can get over that we may escape frost until October. This year there will be two full moons in September, coming September 1st and September 30th.

Let us have faith that the first may find the earth so warm that frost can't touch it, and that good growing conditions will put an abundant harvest under the shingles before September 30th.

Studebaker

Established 1862

More Power Less Cost

Both Series "18" Studebaker FOUR and Series "18" Studebaker SIX are noted for their great power, and especially their great power in ratio to their very low consumption of gasoline.

It has taken Studebaker four years to improve, refine and perfect the wonderful Studebaker motor. It has been solved through the experience of 250,000 cars in the hands of owners. It is only through an evolution like this, that perfection of power in ratio to fuel consumption can possibly be developed.

There are no secret processes; no basic patents; no features of design that are unknown or prohibited by patents. The Engineer can use what he wishes, but he can only know how to use the best features by continually improving, refining and perfecting—through the experience of a motor in actual service.

This is why Studebaker can truthfully claim that the design of its motor is unsurpassed in simplicity, accessibility and power. By the refinement of reciprocating parts, vibration has been reduced to an almost unobservable minimum.

The bearing areas of the motor have been enlarged and increased, giving greater durability, more strength, still further insuring smooth, vibrationless operation.

But you cannot appreciate the splendid POWER of the Studebaker car until you TRY it.
